A Indian businesses continue to be at the forefront of the digital marketing ecosystem as they rapidly adapt to the changes. The large scale reach and cheaper internet access has enabled the fast evolving consumer is also sending out strong signals on what she wants. While privacy and relevance is talent key for granted, what users are really looking for is personalisation. But the biggest deal breaker to AI based ‘customisation’ is the realization that different age groups have entirely different process of digital consumption. And this digital experience and thus will significantly add to the labyrinthine complexity of Dig-
